TO THE CHAMPIONSHIPS ORGANIZERS

Subject: Medical certificate

Dear President,

You have accepted to organize a championship and I congratulate you and thank you for your cooperation.

As you know, the wrestlers who participate in the championships shall present, at the moment of the medical control, a medical certificate dated up to three days maximum.

We have noticed deterioration in the enforcement of this regulatory requirement; this is the reason why any wrestler who doesn't show a medical certificate at a 2012 championship or cup will be sent back to the FILA Medical delegate for a complete medical examination. Without medical examination, he/she will be disqualified from the competition.

Given the time this medical examination may take, I kindly ask you to provide the FILA Official doctor with one or two doctors of your Federation.

These medical inspections will cost 100 Swiss Francs, 100 USD or 80 Euros.

Despite the fact that the wrestler has received a medical certificate, he shall present him/herself to the medical controller.

You will also find enclosed the directives that been sent to the FILA medical delegates. These directives summarize the main provisions of the FILA Health Regulations.

I thank you for taking into consideration these directives and for transmitting all useful instructions to the manager of the medical aspects of your event who shall get in touch with the FILA official medical delegate upon arrival.

Sincerely yours,

Michel Dusson
FILA Secretary General
