- No challenge authorized in case of penalties for passivity

Criteria to decide between two tied teams in number of victory during World Cups

- | | |
|---------------------------|---|
| 1 st criteria: | Total of classification points after 6 matches between two teams |
| 2 nd criteria: | Most victories by falls, injury, default, forfeit or disqualification |
| 3 rd criteria: | Most match victories by technical superiority |
| 4 th criteria: | Most technical points obtained in all matches |
| 5 th criteria: | Fewest technical points given in all matches |

V. Repechage

It has been voted that the repechage are extended to include the losers to the semi-finalists instead of the finalists. In order to prevent that two wrestlers meet twice, the losers in the semi-finals will compete against the winner of the repechage from the other bracket.

The wrestler losing in the semi-finals in the upper bracket, for example, will wrestle the winner of the repechage in the lower bracket, and vice versa for the loser in lower bracket semi-finals.

However, taking into account the difficulties in relation with the lengthening of the competitions' duration and the schedule (as well as television issues), this proposal of extending the repechage to include the losers to the semi-finalists will be discussed again by the FILA Bureau at its next meeting.

Until further notice, the repechage bouts will take place as currently, without any change.

I thank you for your attention in this matter and remain

Yours sincerely,

Nenad Lalovic
FILA President
