Subject: Selling of Veteran licenses via Athena

Dear Madam, Dear Sir,

Our Athena platform is now ready for the selling of Veteran athlete's licenses.

So on the occasion of the 2016 Veteran World Championships which will take place in Seinäjoki (Finland, 23.09.2016 -GR) and Walbrzych (Poland, 07.10.16 – FW/FS), licenses will not be sold on site.

This means that all Federations will have to buy their athletes license via Athena before going to these competitions.

We are reminding you that the UWW license is valid for all Wrestling's styles, from the day it is paid until 31st December of the current year. It covers the athlete's medical expenses in case of an accident during the competitions entered in our calendar.

The purchasing procedure for a Veteran license is the same as for a Senior : the passport, photo and annual medical certificate must be uploaded in Athena and then the licence can be bought.

It costs CHF 100.- Each athlete will receive a personal card within weeks of purchasing, sent to National Federations by priority mail. This card is unique and can be reused each year, after a new purchase via Athena.

You'll find our tutorials for the license purchase via our Athena platform on the following link : <https://unitedworldwrestling.org/athena> and we remain at your disposal for any further details.

We thank you for your understanding and kind collaboration.

Sincerely yours

Michel Dusson
